The logo for Ambra, featuring the word "Ambra" in a stylized black font with a red swoosh underneath.

PROFILE:

Ambra is one of the largest apparel manufacturers in Albania and specializes in Cut Make Trim (CMT) production. We are a privately-owned business producing a variety of products including: infants' outerwear jackets, women's coats, children's pants and blouses and various types of uniforms.

Our company prides itself on:

1. High finish quality
2. Quick turn-around capacity
3. Convenient location to EU fabric markets
4. Competitive pricing
5. Low minimum order sizes
6. Fast delivery to EU markets/clients

OPERATIONS:

Ambra is focused on high quality production with up-to-date machinery including such specialized equipment as fusing machines, a 10-needle computerized embroidery machine, spreader, and collar assembly unit. The company has a single shift of 300 workers. There are 10 production lines of 25-30 workers each and each line can make any product. Weekly production capacity depends upon the styles being manufactured. Ambra produces orders as small as 200 units per style. The company works overtime and sub-contracts work as necessary and as agreed with clients.

Ambra owns the existing premises and the land it stands upon. As agreed with clients, finished orders are accumulated and directly exported via an outside trucking company. This dedicated truck delivers finished product and picks up raw material on the return trip.

The company is certified with ISO 9001:2008.

HISTORY:

Ambra is a family owned business. The family is originally from Durres and the present owner began Ambra in 1995, in a building on the current premises. Additional expansion occurred in 1996, and the entire facility renovated in 2011. Several members of the family are actively employed in the business.
